- 2.2 All customers must complete an official application form formally requesting the municipality to connect them to the service supply lines.
- 2.3 A copy of the application form, conditions of the services and extracts of the relevant council's credit control and debt collection policy and by-laws must be handed to every customer on request and will be available in ten working days.
- 2.4 Billing is to be accurate, timeous and understandable.
- 2.5 The customer is entitled to reasonable access to pay points and to a variety of reliable payment methods.
- 2.6 The customer is entitled to an efficient, effective and reasonable response to appeals, and should suffer no disadvantage during the processing of a reasonable appeal.
- 2.7 Enforcement of payment must be prompt, consistent and effective.
- 2.8 Fraud/criminality will lead to loss of rights and heavy penalties and/or public prosecution.
- 2.9 Incentives and disincentives may be used in collection procedures.
- 2.10 The collection process will be cost-effective.
- 2.11 Collection 'Best Practices' will be pursued.
- 2.12 Results will be regularly and efficiently reported.

¹Section 96(a) of the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000) provides that a municipality must collect all money that is due and payable to it subject to this Act and any other applicable legislation

The Municipality may restrict the supply of water or discontinue any other service to the premises where metered services are rendered when the consumer:-

6.1. Personal Contact

6.1.1 Council or its agents will endeavour to implement a system to make personal, electronic or telephonic contact with all arrear debtors to encourage their payment and to inform them of their arrears, state their rights (if any) to conclude arrangements or to indigence subsidies, other related matters and will provide information on how and where to access such arrangements or subsidies.

6.1.2 Such contact is not a right for debtors to enjoy and disconnection of services and other collection proceedings will continue in the absence of such contact for whatever reason.

6.1.3 Services as contemplated in will be rendered at a charge as determined during the annual budget process.

6.2. Enforcement Mechanisms

6.2.1 Interruption of service¹

6.2.1.1 Customers who are in arrears with their municipal account and who have not made arrangements with the council will have their supply of electricity and water, and other municipal services, suspended or disconnected.

6.2.1.2 The customers will receive a first notice to inform him/her that his/her account is overdue. This notice could either be a written notification delivered at the site of the consumption or by SMS via a cell phone number, supplied by the consumers on the application for service form. (Consumer to keep council updated with change of numbers)

6.2.1.3 The customers will receive the second notice 7(seven) days after the first notice was issued, if no payment or arrangement was made

6.2.1.4 Failing to pay the account after both the first and second notices were served, the flow of the water supply will be reduced and/or the disconnection of electricity service may occur when the account is still overdue after 14 days

6.2.1.5 The cost to have water supply reinstated and electricity reconnected will be an amount set by council payable in advance.

6.2.1.6 Council reserves the right to deny or restrict the sale of electricity or water to customers who are in arrears with their rates or other municipal charges.

6.2.1.7 Upon the liquidation of arrears, or the conclusion of arrangements, the service will be reconnected as soon as conveniently possible as but not later than 10 working days.

6.2.1.8 The cost of the restriction or disconnection, and the reconnection, will be determined by tariffs agreed by Council, and will be payable by the customer.

6.2.1.9 The Municipality will introduce “**70/30**” prepayment debt recovery. It’s a pre-payment system whereby 20% of payment is allocated to arrears and 70% is allocated to the purchase of electricity or water when the account is arrears.

6.2.1.10 If a previous arrangement has been dishonoured, the municipality will sell pre-paid electricity to a consumer if the consumer has paid the current account as well as an agreed amount on the arrears. The need of a consumer must be taken into consideration when the amount of electricity which the consumer will be allowed to buy, is determined. However, the maximum electricity which can be bought must not exceed the amount which has been paid on the arrears. If the dispute arises, the CFO will determine the amount for which electricity can be bought.

6.3.6 All costs of this process are for the account of the debtor.

6.4.2 Council will immediately terminate the supply of services to a customer should such conduct as outlined above be detected.

6.4.3 The total bill owing, including penalties, assessment of unauthorized consumption and disconnection and reconnection fees, and increased deposits as determined by Council if applicable, becomes due and payable before any reconnection can be sanctioned.

6.4.4 Council will maintain monitoring systems and teams to detect and survey customers who are undertaking such illegal actions.

6.4.5 Council may distinguish in its penalties between cases of vandalism and cases of theft.

6.4.6 Subsequent acts of tampering will lead to penalties and deposits increasing in quantum.
