As per Section 7(g) of the Act, the State Information Technology Agency is empowered to act as a procurement agency in respect of information technology requirements in accordance with state procurement policy regarding the provision of data processing services, training, application software development and maintenance services, technical, functional and business advice and support, and related management services.

Legislative Framework

1. **Constitution of the Republic of South Africa, 1996 (Act 108 of 1996)**

Annexure 8

Section 217(1) of the Constitution of the Republic of South Africa, 1996 (Act 108 of 1996) provides the basis for procurement and determines that:

“When an organ of state in the national, provincial or local sphere of government, or any other institution identified in national legislation, contracts for goods or services, it must do so in accordance with a system which is fair, equitable, transparent, competitive and cost effective”.

This section of the Constitution establishes the overarching procurement framework, namely that procurement must be:

- Fair;
- Equitable;
- Transparent Competitive; and
- Cost effective.

Section 217(2) of the Constitution establishes South Africa’s preferential procurement policy, namely that: Subsection (1) does not prevent the organs of state or institutions referred to in that subsection from implementing a procurement policy providing for:

- a) Categories of preference in the allocation of contracts; and
- b) The protection or advancement of persons, or categories of persons, disadvantaged by unfair discrimination.

Section 217(3) of the Constitution (as amended) confers an obligation for national legislation to prescribe a framework providing for preferential procurement to address the social and economic imbalances of the past, viz;

National legislation must prescribe a framework within which the policy referred to in subsection (2) must be implemented.

2. Preferential Procurement Policy Framework Act, 2000 (Act No.5 of 2000) (PPPFA).

Effect was given to section 217(3) of the Constitution in the form of the Preferential Procurement Policy Framework Act, 2000 (Act No.5 of 2000) (PPPFA). The PPPFA provides a framework within which procurement policies referred to in section 217 (3) must be implemented.

The PPPFA requires organs of State to determine their preferential procurement policies and implement it within a framework prescribed in the Act. The Framework provided by the Act requires that a preference point system must be followed viz:

- For contracts with a Rand value above a prescribed amount, a maximum of 10 points may be allocated for specific goals provided that the lowest acceptable tender scores 90 points for price.
- For contracts with a Rand value equal to or below a prescribed amount, a maximum of 20 points may be allocated for specific goals provided that the lowest acceptable tender scores 80 points for price.
- Any other acceptable tenders which are higher in price must score fewer points on a pro rata basis, calculated on their tender prices in relation to the lowest acceptable tender in accordance with a prescribed formula; and

Annexure 8

- The contract must be awarded to the tenderer who scores the highest points unless objective criteria in addition to that pertaining to specific goals justify the award to another tenderer.

The PPPFA identifies specific goals to include two sets of parameters:

- Contracting with persons, or categories of persons, historically disadvantaged by unfair discrimination on the basis of race, gender or disability; and
- Implementing the programme of the Reconstruction and Development Programme as published in Government Gazette No. 16085 dated 23 November 1994.

The framework furthermore requires that:

- Any specific goal, for which a point may be awarded, must be clearly specified in the invitation to submit a tender;
- Any goals contemplated must be measurable, quantifiable and monitored for compliance.

No referencing outside of the points system is permitted. This in practice means that tenderers who obtain the highest number of points can only have their tenders rejected should they:

- Have insufficient capacity or capability to deliver; or
- Are under suspension from participating in public procurement for prior actions, e.g. withdrawing a tender after the closing date for tenders, failing to provide sureties, failing to execute the contract when instructed to do so, performing unsatisfactorily, offering bribes, or acting improperly.

Regulations pertaining to the PPPFA, the Preferential Procurement Regulations 2001 were published in Government Gazette No. 22549 dated 10 August 2001.

3. Municipal Finance Management Act (Act 56 of 2003)

A Policy Strategy to Guide Uniformity in Procurement Reform Processes in Government was approved by Cabinet in September 2004 as a strategy to point out the direction that Government is moving towards in the implementation of Supply Chain Management within Government. This strategy is intended to guide the uniform implementation of Government's procurement reform initiatives as well as the issuing of Regulations in terms of the Municipal Finance Management Act (Act 56 of 2003) in respect of the Framework for Supply Chain Management.

The MFMA requires the Municipality to have and implement a Supply Chain Management Policy. The Supply Chain Management Policy must be in accordance with Section 217 of Act 108 of 1996. The Act further requires that the Municipal Manager as Accounting Officer to ensure that the Municipality has and maintains a Supply Chain Management Policy.

4. Broad-Based Black Economic Empowerment Act, 2003 (Act No. 53 of 2003)

Annexure 8

The TLM is committed to black economic empowerment and the advancement of historically disadvantaged individuals. It will, therefore, at all times apply the provisions of the Preferential Procurement Policy Framework Act and the Regulations issued in terms of that Act when goods and services are procured.

In determining the preferential procurement policy, the Thabazimbi Local Municipality supports the provisions of the Broad-Based Black Economic Empowerment Act, 2003 (Act No. 53 of 2003) and the related codes of good practice to be issued by the Minister of Trade and Industry. The Thabazimbi Local Municipality therefore acknowledges that Preferential Procurement Policy will be reviewed accordingly as soon as the Broad-Based Black Economic Empowerment codes are developed.

These procurement policies have been drafted around the philosophy and content of the Municipal Finance Management Act i.e. to allow “managers to manage and be held accountable”, while councillors are provided with information necessary to set overall policy and priorities for the Municipality.
