

Removal of illegal boards

Thabazimbi Local Municipality appeal to all business community to adhere to the law and advertising. This will help us not disturb the visual impact of our traffic and motorists as well as our tourists.

Outdoor advertising signs should only be placed where they are most compatible with the surrounding locality and where they do not impact on visual corridors and/or scenic drives. Signs that compromise protected, unique or sensitive areas will not be permitted. In addition, outdoor advertising and signs should not compromise the functioning and safety of traffic and should not adversely affect the character of a locality by way of appearance, size or illumination.

Thabazimbi Municipality therefore requests all transgressors to remove all illegal boards within 14 days. The application to advertise with advertising boards will be approved by the municipality before they can be planted. Failure to do so will lead to the municipality to remove them without hesitation.
