Table 1: Monthly Budget Statement Summary – M08 February 2026

The financial performance of the Municipality for the period ending 28 February 2026 (Month 08) reflects moderate operational performance with notable variances in revenue collection, controlled expenditure, and slower implementation of capital projects.

Total operating revenue excluding capital transfers amounts to R371.2 million against a year-to-date (YTD) budget of R435.2 million, resulting in an under-collection of R64.0 million (15%). The variance is largely attributable to lower service charge collections, particularly electricity and water revenue, due to billing and consumer payment challenges. Property rates collections remain relatively stable and close to budget projections. Investment revenue and other own revenue performed above expectations due to improved returns on cash investments and additional municipal service recoveries.

Total operating expenditure amounts to R307.3 million against a YTD budget of R410.4 million, reflecting under-expenditure of R103.2 million (25%). The variance is mainly attributable to vacant funded posts, cost containment measures, and lower electricity bulk purchases resulting from reduced consumption levels. In addition, depreciation charges have not yet been recorded during the reporting period, contributing to the reported variance.

The municipality recorded an operating surplus of R63.9 million compared to the budgeted surplus of R24.8 million for the same period. The improved operating position is mainly driven by lower than anticipated expenditure.

Capital programme implementation remains below planned levels, with capital expenditure of R33.7 million against a YTD budget of R75.8 million, resulting in under-expenditure of R42.1 million (55%).

From a liquidity perspective, the municipality reported cash and cash equivalents of R158.3 million at the end of February 2026. However, the municipality continues to experience revenue collection challenges, as reflected in the consumer debtor book of approximately R1.10 billion, with a significant portion older than one year. Similarly, the municipality has creditor obligations amounting to approximately R661.8 million, indicating ongoing pressure on the municipality's financial position.

### Key Risks and Management Actions

- **Revenue Risk:** Service charges (electricity and water) remain below expected levels. Management is strengthening billing accuracy, credit control, and debt collection processes.
- **Expenditure Risk:** Contracted services expenditure is significantly front-loaded. Management will implement stricter contract management and spending controls.
- **Cash Flow Dependency:** High interest on receivables indicates elevated debtor levels, which may impact long-term cash sustainability.

Table 2: MBRR C2 Monthly Budget Statement - Financial Performance (revenue and expenditure)

As at 29 February (M08), the Municipality recorded total operating revenue of R410.9 million, representing 76% of the year-to-date budget of R543.3 million, resulting in a negative variance of R132.4 million (-24%). The underperformance is largely attributable

to lower-than-anticipated revenue collection within the Trading Services functions, particularly Energy Sources, Water Management, Waste Water Management and Waste Management.

Total operating expenditure amounted to R307.3 million, representing 75% of the year-to-date budget of R410.4 million, resulting in a negative variance of R103.2 million (-25%). The variance reflects slower spending across several functions, particularly within Trading Services and Economic and Environmental Services, which may be attributable to operational efficiencies, delayed procurement processes, or cash flow management interventions.

The Municipality recorded a year-to-date operating surplus of R103.7 million, compared to a year-to-date budgeted surplus of R132.9 million, resulting in a negative variance of R29.2 million (-22%).

Table 4: MBRR C4 Monthly Budget Statement - Financial Performance (standard classification)

## **Revenue**

### **Service charges – Electricity**

Electricity revenue recorded R67.0 million against a year-to-date budget of R97.2 million, resulting in an under-performance of R30.2 million (-31%). The variance is primarily attributable to lower electricity consumption, increased energy efficiency among consumers, and potential revenue collection challenges.

### **Service charges – Water**

Water revenue amounted to R22.6 million compared to a budget of R57.9 million, reflecting a negative variance of R35.3 million (-61%). The underperformance may be attributed to billing challenges, lower water consumption, or delays in meter readings and billing processes.

### **Service charges – Waste Water Management**

Waste water management revenue recorded R20.5 million against a budget of R22.2 million, resulting in a variance of R1.7 million (-8%). Revenue performance is largely in line with expectations, with minor deviations due to billing timing differences.

### **Service charges – Waste Management**

Waste management revenue amounted to R13.1 million against a budget of R13.4 million, resulting in a marginal variance of R0.3 million (-2%), indicating that revenue performance is largely aligned with budget expectations.

### **Sale of Goods and Rendering of Services**

Revenue from the sale of goods and services recorded R0.47 million compared to a budget of R1.32 million, resulting in a negative variance of R0.85 million (-64%). The variance is attributable to lower activity levels in services generating this revenue stream.

### **Agency Services**

Interest earned from Receivables

Interest on outstanding debtor balances recorded R50.8 million against a budget of R37.3 million, resulting in a positive variance of R13.5 million (36%). The increase is attributable to higher debtor balances generating interest.

### **Interest from Current and Non-Current Assets**

### **Rental from Fixed Assets**

Rental income from municipal assets recorded R0.37 million compared to a budget of R0.45 million, resulting in a variance of R0.08 million (-18%). The variance may be due to delayed rental payments or vacant municipal facilities.

However, the Municipality must ensure investments are aligned to approved cash and investment policies, and that interest earnings are properly monitored against liquidity needs.

## **Financial position**

- 1.1.1. **Liquidity** –the municipality is currently not financially liquid meaning it cannot pay its creditors with the prescribed period of 30 days. Further note that although the municipality is not in compliance with the section 65 of the MFMA, the municipality has introduced various mechanisms of funding its working capital. The municipality does not meet the minimum threshold of liquidity ratio which is 2:1 as the current situation 1:1
- 1.1.2. **Going concern** – the municipality acknowledges that there's a challenge of going concern. This is a historical issue when the municipality was once put under administration and multiple creditor's outstanding balance were not paid, this then resulted into having a significant credit book. On the other hand, debtors were and still not paying their dues within the prescribed period

Table 5: MBRR C5 Monthly Budget Statement - Capital Expenditure (municipal vote, standard classification, and funding).

Total capital expenditure for the period ending February 2026 (M08) amounts to R33.7 million against a year-to-date (YTD) budget of R75.8 million, resulting in under-expenditure of R42.1 million (55%).

The monthly capital expenditure recorded for February amounts to R2.9 million.

The low spending level indicates slow implementation of capital infrastructure projects, largely due to delays in procurement processes, project readiness challenges, and contractor performance issues.

Table 6: MBRR C6 Financial Position as at 28 February 2026

As at 28 February 2026, the municipality reported total assets of R1.25 billion against total liabilities of R991.1 million, resulting in net assets of R258.6 million.

Total community wealth/equity amounts to R254.6 million, primarily consisting of accumulated surpluses from previous financial periods.

While the municipality remains technically solvent, the financial position indicates significant liquidity pressure, largely due to high levels of trade payables and outstanding consumer debtors.

Table 7: MBRR C7 Monthly Budget Statement – Cash

**Cash Flow – M08 February 2026**

During the period under review, the municipality generated net cash inflows from operating activities of R160.2 million, compared to the year-to-date (YTD) budget of R48.1 million, resulting in a positive variance of R112.1 million. The favourable variance is largely attributable to lower than anticipated operating payments and higher receipts from operational grants.

Cash receipts from property rates amount to R72.4 million against a YTD budget of R80.5 million, reflecting a shortfall of R8.1 million (10%) mainly due to collection challenges and payment patterns from consumers.

Receipts from service charges amount to R104.8 million against a YTD budget of R137.3 million, resulting in a negative variance of R32.6 million (24%). This underperformance is primarily due to lower collections on electricity and water accounts and ongoing challenges in consumer payment behaviour.

Receipts from other revenue sources amount to R45.7 million, exceeding the YTD budget of R27.3 million by R18.4 million (67%). This positive variance is mainly due to higher collections from miscellaneous municipal revenue streams.

Operational grant receipts amount to R160.3 million against a YTD budget of R96.8 million, reflecting a positive variance of R63.5 million (66%). This is mainly due to the timing of transfers from national government in accordance with grant payment schedules.

Payments to suppliers and employees amount to R222.9 million compared to the YTD budget of R366.6 million, reflecting a variance of R143.7 million (39%). The lower expenditure is attributable to cost containment measures, vacancies, and delays in operational spending.

Cash utilised for investing activities amounts to R37.4 million, compared to the YTD budget of R74.2 million, resulting in a variance of R36.8 million (50%).

The municipality recorded a net increase in cash held of R122.7 million against a budgeted decrease of R26.2 million, mainly due to higher operational grant receipts and lower operational payments during the reporting period.

Cash and cash equivalents amounted to R158.3 million at the end of February 2026, compared to the YTD budget of R167.8 million, reflecting a variance of R9.5 million (6%).

Table 9: MBRRSC 3: Monthly Budget Statement - Debtor's age analysis

As at 28 February 2026, the municipality's total consumer debtors amount to R1.102 billion. Of this amount, R1.026 billion (approximately 93%) is outstanding for more than 90 days, indicating significant challenges in revenue collection and consumer payment behaviour.

The largest portion of municipal debt relates to property rates, electricity, and waste management services. Property Rates debt amounts to R252.1 million, of which R222.7 million is outstanding for more than 90 days. This indicates persistent collection challenges and the accumulation of historic arrears on ratepayer accounts. Electricity revenue debt amounts to R97.6 million, with a significant portion older than 90 days. Electricity remains one of the municipality's key revenue sources, and delayed payments continue to impact cash flow and the municipality's ability to meet bulk purchase obligations.

Water revenue debt amounts to R192.6 million, with R186.5 million outstanding for more than 90 days. This reflects ongoing challenges in collecting revenue from water services and may be linked to billing disputes, affordability constraints, or consumer non-payment. Waste water management debt amounts to R148.2 million, with most balances also exceeding 90 days. Waste management debt amounts to R88.6 million, with R84.1 million outstanding beyond 90 days, further contributing to the municipality's growing debtor book.

In addition, interest charged on arrear accounts amounts to R331.1 million, which represents accumulated interest on long-outstanding consumer debt.

### **Management Interventions and Corrective Actions**

In response to the ageing debtor profile, the Municipality is implementing the following actions:

- Intensification of credit control and debt collection measures, including disconnections where legally permissible.
- Review and enforcement of payment arrangements, particularly for high-value commercial consumers.
- Engagement with Organs of State to regularise outstanding balances.
- Ongoing review of indigent registers to ensure accurate targeting of relief.
- Application of debt impairment policies in accordance with GRAP and MFMA requirements.
- Strengthening of billing accuracy and data quality to prevent future accumulation of arrears.

|    |        | <i>Note: By applying for Municipal Debt Relief as set-out in paragraph 3. of MFMA Circular no. 124, the council of a municipality that during the duration of the Municipal Debt Relief programme fails to comply with any condition of the Relief, agrees to apply to NERSA to revoke the municipality's license in terms of section 17 of the Electricity Regulation Act, 2006 (Act no. 4 of 2006). Any such application must be preceded by the relevant processes for appointing an external mechanism as envisaged in Chapter 8 of the Municipal Systems Act, 2000, including the necessary service delivery agreement aligning with the Municipal Systems Act, 2000 and Electricity Regulation Act, 2006.
