1. INTRODUCTION

According to Municipal System Act 32 of 2000, Chapter 5, Section 28 and 29: It requires the municipality to adopt a process set out in writing which is supposed to guide the planning, drafting, adoption and review of the IDP. This process is called the **PROCESS PLAN**. The underlying principle and process helps with the management of IDP on a day to day basis to produce an implementable IDP for the year 2018/19. The Process Plan should fulfil the function of an operational plan for the IDP process. It says in transparent manner what has to happen when, by whom, with whom, where and it include a cost estimate.

Contents for the Process Plan indicate the following:-

1. Introduction
2. Distribution of roles and responsibilities
3. Organisational structure/institutional arrangements
4. Action Plan-time frame and resources
5. Mechanisms and procedures for public participation
6. Mechanisms and Procedures for alignment.
7. Legally Binding legislation and planning requirements
8. Cost Estimate for the Planning Process.
9. Monitoring of review process and implementation

a. STRUCTURE OF THIS REPORT

This report consists of nine sections. These sections provide basic guidance, purposes, contents and processes of the IDP. Each section has its importance and a role it plays during the implementation of the IDP and these sections can be briefly described as follows:-

- ▶ Allocation of roles and responsibilities – the IDP review needs to be undertaken as a collaborative effort by different role players and the distribution of the roles and responsibilities is thus critical especially within the municipality to ensure that each role player is adequately aware of the required input and capacity that he/ she should provide within the lifespan of the IDP review process.
- ▶ Institutional arrangements for implementation – this is the composition of the key representatives who are critical for the management, execution and implementation of the IDP process.
- ▶ Mechanisms for public participation – as previously indicated public participation is a compulsory principle and a legal requirement with regards to the annual review of the IDP process.
- ▶ Mechanisms and procedures for alignment – this provides a brief overview regarding the required procedures for vertical and horizontal alignment that the IDP needs to achieve. The vertical alignment will include aligning the IDP with National and Provincial policies and District strategies, while the horizontal alignment will include aligning the IDP with the Sector Plans and adjacent municipalities.
- ▶ Binding legislations and planning requirements – the proposed IDP review needs to show consciousness by Thabazimbi Municipality of its constitutional and policy mandate for developmental local government including its powers and functions. This section will list the key legislations and policies that must be considered for the review of the IDP.
- ▶ Monitoring of the process plan – this process highlights the series of interrelated stages which will culminate the production of the IDP process.

- ▶ Action plan with timeframes – the IDP review is a process that is action driven and time bound. This section will therefore set the overall targets and a framework by which the IDP Tasks Team will abide to in order to ensure that the overall process is undertaken and completed within the required timeframes.
- ▶ Costs estimates for the review process – This presents the financial implications that will be incurred through allocating the required resources that are needed for undertaking the scope of the review exercise.

1.1 LEGAL CONTEXT

1.1.1 THE INTEGRATED DEVELOPMENT PLAN

Chapter 5 and Section 25 (1) of the Municipal Systems Act (2000) indicates that:

Each municipal council must, within a prescribed period after the start of its elected term, adopt a single, all inclusive and strategic plan for the development of the municipality which-

- a) Links integrates and coordinates plans and takes into account proposals for the development of the municipality;*
- b) Aligns the resources and capacity of the municipality with the implementation of the plan;*
- c) Complies with the provisions of this Chapter; and*
- d) Is compatible with national and provincial development plans and planning requirements binding on the municipality in terms of legislation*

The legislation indicates that in terms of Section 34 of the MSA:

A municipal council-

(a) must review in accordance its integrated development plan-

(i) annually in accordance with an assessment of its performance measurements in terms of section 41; and

(ii) to the extent that changing circumstances so demand; and

(b) may amend its IDP in accordance with a prescribed process

1.1.2 ANNUAL BUDGET

The Annual Budget and the IDP are inextricably linked to one another, something that has been formalised through the promulgation of the Municipal Finance Management Act (2004). Chapter 4 and Section 21 (1) of the Municipal Finance Management Act (MFMA) indicates that:

The Mayor of a municipality must-

(b) At least 10 months before the start of the budget year, table in the municipal council a time schedule outlining key deadlines for-

i. The preparation, tabling and approval of the annual budget;

ii. The annual review of-

aa) The integrated development plan in terms of section 34 of the Municipal Systems Act; and

bb) The budget related policies.

iii. The tabling and adoption of any amendments to the integrated development plan and the budget-related policies; and

iv. The consultative processes forming part of the processes referred to in subparagraphs (i), (ii) and (iii).

In deciding on the schedule for the 2018/19 budget process, the Mayor and Municipal Manager must also note that the MFMA read together with the Municipal Budget and Reporting Regulations only allows for a 'main adjustments budget' to be tabled after the midyear budget and performance assessment has been tabled in council, i.e. after 1 January 2018. In addition, the permitted scope of an adjustments budget is quite limited: taxes and tariffs may not be increased, and any additional revenues may only be appropriated to programmes and projects already budgeted for (see section 28 of the MFMA). Therefore, the idea of the current council passing a 'holding budget' which the new council will change substantially through an adjustments budget soon after the start of the municipal financial year is not legally permitted. It is each municipal council's prerogative to decide when to approve its annual budget. However, to assist municipalities, OTP, Cogesta, National Treasury and SALGA proposes that municipal Councils consider adopting one of the following options for their 2018/19 IDP/Budget process:

1.1.3 SERVICE DELIVERY BUDGET IMPLEMENTATION PLAN

The Service Delivery & Budget Implementation Plan (SDBIP) is an implementation plan of the approved Integrated Development Plan (IDP) and Medium Term Revenue Expenditure Framework. Therefore, only projects that are budgeted for are implemented.

Section 1 of the MFMA defines the SDBIP as:

- "a detailed plan approved by the Mayor of a municipality in terms of section 53 (1) (c) (ii) for implementing the municipality's delivery of services and the execution of its annual budget and which must include (as part of the top-layer) the following:
 - (a) Projections for each month of –
 - (i) Revenue to be collected, by source; and
 - (ii) Operational and capital expenditure, by vote;
 - (b) Service Delivery Targets and Performance indicators for each quarter

1.1.4 ALIGNMENT OF THE IDP, BUDGET AND PERFORMANCE MANAGEMENT PROCESSES

Every attempt has been made in this Process Plan to align the IDP and Budget preparation process, and the Performance Management System (PMS)

1.2 PURPOSE

The purpose of the Process plan is to guide the 2017 – 2022 IDP process. This document seeks to provide guidance to municipalities, municipal entities, sector departments and parastatals in preparation for the 2018/19 IDPs and budgets processes

1.3 PLANNING CYCLE

The total programme spans over an expected ten (10) month period and has been categorised as:

- Phase 0 – Preparation
- Phase 1 – Analysis
- Phase 2 – Strategies
- Phase 3 – Projects
- Phase 4 – Integration
- Phase 5 – Approval

One need to consider that certain phases/activities overlap with others, thus enabling the Municipality to adhere to the required timeframe. It should be noted further, that the above programme excludes the 3-week year-end vacation period and Council recess in December.

**Table: 2**

| CYCLE | PHASES | STRATEGIC INPUT/OUTPUT |
|-----------------|--------------------|--|
| July-Sept 2017 | Preparation phase | Information gathering at all levels. Progress on previous commitments and change of strategic direction or developments in line with the MTSF, NSDP and LEGDP |
| Oct-Dec 2017 | Consultation phase | Public participation in all the wards assisted by Ward Committees. Strategic information based on the 1 st cycle. Budget indication by the CFO, Sector Depts. and Private Sector. Programmes to be based on consultation process with the Communities. Priority projects allocations should be aligned to influence the initial budget. The 1 st draft IDP and budget should be in place by mid-December for Public Consultation. Both the Capital Expenditure (CAPEX) and Operational Expenditure (OPEX). |
| Jan-March 2018 | Drafting phase | Heads of Depts. to embark on strategic sessions to analyse their budget to give an indication of MTEF allocations. Each Depts to provide its projections for the next 5 yrs in order to guide budgeting process. |
| March-June 2018 | Adoption phase | Both the District and the Thabazimbi Municipal Council will engage in Public Debates and Consultation with the Community for inputs into the final IDP Document, which will be adopted by stakeholders and approved by Council. |

1.3.1 MUNICIPAL ACCOUNTABILITY CYCLE IN SA

Municipal accountability in South Africa consists of:

- a. **Integrated Development Plan (IDP):** Sets out the municipality's goals and development plan. Council adopts the IDP and undertakes an annual review and assessment of performance.
- b. **Budget:** The IDP informs the budget. The budget sets out the revenue raising and expenditure plan of the municipality for approval by Council if it is linked to the SDBIP. The budget and the SDBIP lay the basis for the performance agreements of the Municipal Manager and Senior Management.

2.DISTRIBUTION OF ROLES AND RESPONSIBILITIES IN THE IDP PROCESS

The Municipal Manager through the Divisional Head IDP, continuously has to ensure that both external and internal role players adhere to their performance roles throughout the processes. The IDP process is a consultative and participatory process in its nature and this therefore necessitates specific roles and responsibilities for various structures within and outside the municipal jurisdiction. The stakeholders are expected to comply with all the roles and responsibilities that are listed below since they will be applied throughout the process.

| Government Departments | <ul style="list-style-type: none"> • Provide data and information. • Budget guidelines. • Alignment of budgets with the IDP |

3. ORGANISATIONAL STRUCTURE/INSTITUTIONAL ARRANGEMENTS

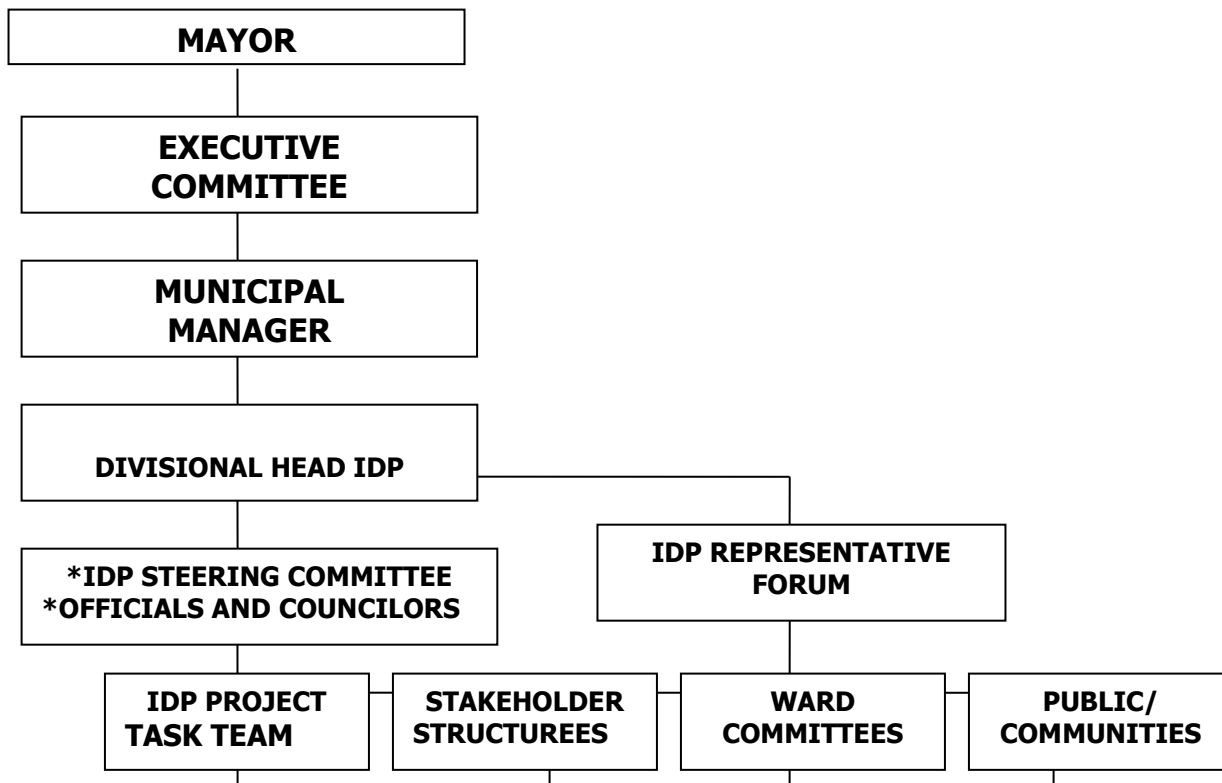

It is critical that certain units or task teams be made by the municipality during the IDP process. It is envisaged that the existing structures be revived for the review process. Organisational Diagram indicates the structures that were created to partake in the IDP planning process.

The purpose would be: Institutionalisation of participation to ensure all residents have equal rights to participate, Effective management of drafting of outputs and afford affected parties the opportunity to contribute to the process. IDP Structures: IDP Steering Committee, IDP Representative Forum and Clusters (Social, Institutional, Economic and Basic Services).

INSTITUTIONAL ARRANGEMENTS/ORGANISATIONAL STRUCTURE OF THE IDP

The IDP process needs to be managed effectively and it is very important that institutional arrangements are properly made. The following structure and persons are recommended:-

Critical Notes: Municipal Budget Finalised - April 2018
Finalize IDP Implementation Plan - May 2018

27 | Page

The involvement of community and stakeholder organisations in the IDP process is one of the main features and requires specific attention. An appropriate public participation strategy has to be formulated by the IDP Steering Committee and must also be approved by Council. In line with section 16 of the Municipal Systems Act 2000, the IDP review process would involve an intensive and structured public and stakeholder's participation process. Public participation has become one of the key features of developmental government. The aspect of public participation has been entrenched in the constitution and chapter 4 of the Municipal Systems Act is a legislative requirement. Participation by interested parties ensures that IDP addresses real issues that are experienced by communities within the local municipality. The establishment of the Representative Forum ensures that public participation is indeed put into practice by the local municipality

Public participation has always been in a structured manner, hence the existing and established forums namely:

- District and Local IDP forums
- Municipal Steering Committee
- Ward Based Community Consultation
- Cluster Meeting
- Executive Meetings
- Council Meetings

It is the responsibility of the Divisional Head to link the municipality with all the relevant stakeholders. The Divisional Head IDP has to make sure that all our Communities and Stakeholders are provided with the draft IDP document.

5.1 FUNCTIONS OF COMMUNITY PARTICIPATION

Participation in the IDP serves to fulfil five major functions namely:

1. **NEED ORIENTATION**
Ensuring that people's needs and problems are taken into account
2. **COMMUNITY OWNERSHIP**
Mobilising local residents and communities initiatives, resources, encouraging co-operation, partnerships between Municipal government and residents for implementation and maintenance
3. **APPROPRIATENESS OF SOLUTIONS**
Using the knowledge and experience of local residents and communities in order to arrive at appropriate and sustainable problem solutions and measures
4. **BUILDING TRUST**
It is an important component of a community participation process to build a foundation of trust between all the role players
5. **EMPOWERMENT**

Making Integrated Development Planning a public event and a forum for negotiating conflicting interest, finding compromises and common ground and thereby, creating the basis for increased transparency and accountability of local government towards local residents.

5.2 PARTICIPATION PROCESS

The following tasks are important to ensure proper community participation, namely:

1. The municipality must compile a database of all relevant community and Stakeholder organisations
2. Communities and stakeholders must be informed of the municipality's intention to embark on the IDP review process and
3. Organised and unorganised community/social groups must be invited by the municipality to participate in the IDP review process

5.3 MECHANISMS FOR PARTICIPATION

The following are important mechanisms for Community participation:

1. WARD COMMITTEES

Meetings will be held with ward committees to inform local community about the IDP Review process, provide report back on the progression of the implementation of the review process as well as on projects that are currently being implemented in the municipal area, review the existing IDP project list and identify new projects. Information must be made available within wards through Public ward meeting.

2. IDP/BUDGET/PMS REP FORUM MEETINGS

The forum should be restructured so as to include the recently established ward committees, service providers and other community – based organizations. There are three proposed IDP Forum meetings to be held during the review process. The table below indicates the details with regards to the meetings that will be undertaken.

Table: 9

| MEETING | PURPOSE | OUTPUT |
|-------------------------|---|---------------------|
| First IDP Forum Meeting | The first meeting will be undertaken at the analysis phase of the IDP process. The aim of this meeting is to highlight the past performance of the previous financial years in terms of the success, challenges and achievements in meeting the | IDP Analysis Report |

| | | | |
|--------------------------|--|--|--|
| | | intended goals, strategic objectives and addressing the backlogs. The second aim will primarily focus on the presentation of the reviewed analysis in order to examine the relevance of previous priority issues and to assess new issues. | |
| Second IDP Forum Meeting | | The primary aim of this meeting is to align the development strategy with the new priorities including those of the district and the sector departments. Its objectives are as follows:- <ul style="list-style-type: none"> ▶ To review the development strategic framework, ▶ To receive the presentations from the sector departments on their priorities. | Strategic Planning Framework |
| Third IDP Forum Meeting | | The primary aim of this meeting is to integrate information obtained from the ward committees meetings. Its objectives are as follows:- <ul style="list-style-type: none"> ▶ Discussion regarding the existing IDP Priority issues and projects, ▶ Submission of additional projects within the municipality, ▶ Developing a municipal list of priority projects. | List of Priority Projects |
| Fourth IDP Forum Meeting | | The primary aim of this meeting is to integrate information obtained from all stakeholders. Its objectives are as follows:- <ul style="list-style-type: none"> ▶ Incorporate in-puts by all stakeholders ▶ Give feed-back to the community | Approved IDP with community in – puts. |

3. IDP PUBLIC PARTICIPATION

Thabazimbi Municipality, in conjunction with Waterberg District Municipality, intends to undertake the IDP Public Participation during October 2017 for needs identification per ward and April – May 2018 for mayoral roadshows for final community inputs in the IDP/Budget documents. This summit will comprise of the administrative and political offices within both Thabazimbi Municipality and Waterberg District Municipality. The invitation will be extended to the councilors, ward committees and CDWs. The District will present the programs and projects as captured on the draft district wide IDP.

4. STRATEGIC PLANNING SESSION

Strategic planning will be undertaken in the form of the workshop with Senior, Middle Management, PMT, EXO, Councillors, labour unions and stakeholders. The session will be undertaken in January 2018 and it will entail the review of the strategic planning framework. This Strategic Framework should indicate the strategic direction of the municipality, and form the basis for updating the Vision, Mission, Values, Objectives and Strategies. Furthermore, the most important aspect here is the formulation of key performance indicators.

5. MEDIA INVOLVEMENT

Information regarding the IDP review process and requests for participation by the Community and Stakeholders could be made by the following:

- Newsletters inside Municipal Bills
- Notices at prominent locations
- Postal notices to organised groups and organisations
- Local radio coverage and
- Local newspapers

6. MECHANISMS AND PROCEDURES FOR ALIGNMENT

Alignment is at two levels, horizontal and vertical. Largely the two levels influence each other. Though one can be done independent from each other, if this is done, a clear picture of what is happening will not be achieved. Horizontal alignment will focus on addressing issues at both District and Local Municipalities. Vertical alignment will focus on issues that affect our municipality from National, Provincial Departments, and other organisations. The strategy that we are going to follow applies to both horizontal alignments between the Thabazimbi local municipality and Waterberg District and, and vertical, between the municipalities, the province and the national departments and parastatals. The alignment that is mentioned in here between municipalities on the one hand involves ensuring that their planning activities and processes are co-ordinated and addressed jointly. On the other hand, alignment between local government and other spheres of government as well as parastatals or service providers ensures that the IDP is in line with national and provincial policies and strategies so that it is considered for the allocation of departmental budgets and conditional grants. The Thabazimbi IDP should reflect the integrated planning in its IDP in which both Waterberg District and sector departments' plans find and aligned expression in the document.

For both alignment types, horizontal and vertical, the main responsibility lies with the Thabazimbi Municipality. The role of the IDP Manager at the local level is of utmost importance. IDP unit and external facilitators could be used to support the alignment process. However, the provincial department of local government and office of the Premier play an important role as coordinator to ensure alignment above local level and between districts and departments within the Province.

6.1 ACTIVITIES AND MECHANISM FOR PARTICIPATION PER IDP PLANNING PHASE

- Participation is a key feature for developmental government.
- A legislative requirement as it is entrenched in the Constitution and Chapter 4 of the Municipal Systems Act.
- Participation ensures that the IDP deals or addresses real issues that are experienced by Communities at Local level.

Table: 10

| PLANNING PHASE | ACTIVITIES | MECHANISM |
|-------------------|---|-----------|
| PREPARATION PHASE | <ul style="list-style-type: none"> • Process Plan inputs. | Meeting |
| ANALYSIS | <ul style="list-style-type: none"> • To participate in gaps identification. • To ensure that identified gaps are in line with developmental issues. | Meeting |

|-------------|---|---------|
| STRATEGIES | <ul style="list-style-type: none"> Ensure that developmental objectives are realistic and in line with Strategic Guidelines. Ensure that developmental objectives are realistic. Ensure that reviewed strategies are in line with localized guidelines. Ensure that reviewed strategies are in line with development priorities. Participate in discussions to formulate and adopt alternative strategies. | Meeting |
| PROJECTS | Reviewed Project proposal | Meeting |
| INTEGRATION | All reviewed activities and programme are integrated | Meeting |
| APPROVAL | Council awaits comments for approval | Meeting |

Alignment within the review process serves as an instrument to synthesize and integrates the top down and bottom up planning processes between different spheres of government. The IDP planning processes is a local process, which requires inputs and support from all spheres of government so that the IDP is in line with provincial and national policies and strategies. This will make sure that such plans are then considered for financial allocations or departmental budgets and conditional grants.

As a mechanism for alignment, it is proposed that four focused sessions be undertaken with envisaged four clusters of government departments and service providers. The clusters will be organized according to infrastructure, economic, social and institutional development. Focused sessions will be used to align the programmes, budgets and resources. An alternative option is to organize a service provider's forum. Each cluster has a list of government department and service delivery agencies that work hand – in – hand with and there are tabulated as follows:

Table: 11 Focused Session with Various Stakeholders

The various stakeholders will be involved in consultation process to discuss the existing, future projects and programmes as well as alignment and co – ordination issues.

7.BINDING LEGISLATION AND PLANNING REQUIREMENTS

The IDP requires that municipal planning processes be in line with the national and provincial legislation, policies, programmes and strategies which in turn will be able to inform annual budget allocations. National Acts and Policies further require local government to produce certain integrated sector plans which complements the IDP, thereby avoiding unnecessary duplications. This will necessitate a well co – ordinated and integrated information sharing and dissemination between specific sector departments and municipalities. The following is a list of binding legislation and requirements considered during the IDP planning processes and should also apply during review processes.

| 5. Miscellaneous | R10 000 |
| TOTAL | R990 000 |

The figures above are subject to change in light of the economic factors.

9.MONITORING OF REVIEW PROCESS AND IMPLEMENTATION

It is the responsibility of the Municipal Manager, Divisional Head IDP and PMS Co-ordinator to attend to the IDP review process and to monitor progress with regard to implementation of policies and projects.

The implementation of the ORGANOGRAM and the institution of the PMS are imperative for the effective monitoring of progress in respect of the IDP.

10.CONCLUSION

The Process Plan as part of the IDP, Budget and PMS review preparation phase ensures that the role players within the processes ahead are well prepared. All activities in the document need to be outlined according to the Framework provided by the municipality. The process plan will then inform all planning projection of the Thabazimbi Local Municipality.
